

# Grunigen Medical Library

## **Floor Plan: Grunigen Medical Library**

**General Layout** The library is structured around a long, open public corridor. If you stand at the Main Entrance facing into the library, the open study corridor extends straight ahead of you to the back of the building. All of the enclosed rooms and the staff area are situated in a block to your right.

### **Walking Tour from the Main Entrance**

- **Immediate Area:** As you walk through the Main Entrance, there is a small casual seating area immediately beside you.
- **The Public Corridor:** Walking straight ahead down the main corridor, you will pass a series of rectangular study tables. Halfway down this path, the Service Desk sits as an island counter in the middle of the open floor. At the far end of the corridor are individual study carrels facing the wall on your left.

**Enclosed Spaces (To your Right)** As you walk down the main corridor from the entrance, the enclosed rooms will be on your **right-hand side**. In order from the entrance to the back of the library:

- **Staff Area:** The first large enclosed section on your right is a restricted staff area. It contains three private offices, a staff lounge, and an open workspace.
- **Study and Rest Areas:** Continuing past the staff area, the next block of enclosed rooms on your right contains the Grunigen Study Room, followed by Nap Pods, and then the 24/7 Research Lounge.
- **Shelving and Seating:** A row of tall shelving separates these study and rest rooms from your path in the main corridor. Angled lounge chairs sit nearby, facing the nap pods and research lounge.
- **Classroom 1105:** Situated behind the study rooms and nap pods, extending to the far outer right wall, is a large enclosed classroom. An emergency exit is located just outside this classroom.

### **The Back of the Library**

- **Conference Room:** At the very end of the main corridor is the Angela J. Rios Conference Room, an enclosed meeting space with a large central conference table.
- **Badge Entrance:** Adjacent to the conference room at the back of the library is a secondary entrance, labeled as the UCIMC Badge Entrance, which leads outside through a small vestibule.
